✓ **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Forrest Gunnison on 7/8/2005.

The application has been amended as follows:

1. (Currently amended) A computer-implemented method for generating a question document and an answer document from a database of questions, the database of questions and answers contained in an extensible markup language document, wherein the questions and answers are divided into sections, the method comprising:

creating a first Document Object Model (DOM) tree from the extensible markup language document containing said database of questions and answers, said DOM tree containing nodes for each of the sections and each question and answer in the database;

prompting a user to indicate a number for each of the sections, said number representing how many questions from each of the sections should be chosen;

randomly selecting a number of nodes from each of the sections in said first DOM tree wherein said number of nodes is said number for each of the sections;

making a second DOM tree from said randomly selected nodes; and

refining said second DOM tree into a question document and an answer document.

7. (Cancelled)

2. The following is an examiner's statement of reasons for allowance: Applicant argues that the cited prior art fails to teach the claimed invention. Applicant's arguments are persuasive. Specifically, the cited references in combination fails to teach creating a DOM tree containing nodes for each of the sections and random selection of number of nodes from each section to generate a second DOM tree. Therefore applicant's arguments are persuasive.

Claim 7 is cancelled by examiner's amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanjiv D. Shah whose telephone number is (571) 272-4098. The examiner can normally be reached on M-F 9-5:30.
